A better choice!

As a business organization, you are always looking for new ways to bring benefits to your company and its employees. With the current economy and the uncertain times and challenges consumers and organizations are facing in today's environment, we are all somehow directly or indirectly effected.

Your staff may come to you with questions and concerns about what they can do about their personal financial situation and who they can trust for their financial needs.

Consider offering Southland Credit Union membership. Research shows that a financially sound employee is a more productive employee. Membership with Southland Credit Union will provide your employees with a safe, low-cost alternative to traditional banking and provide a lifetime of value.

The Credit Union Difference

We are pleased to say that Southland's Board of Directors and Management have been prudent when it comes to investing. In fact, Southland did not engage in making exotic mortgage loans or sub-prime lending when many other lenders felt it was the right thing to do. The result is that Southland Credit Union is extremely strong and financially healthy. Southland offers a wide variety of products and services with a remarkable difference in service and savings provided to our Members.

Southland is a not-for-profit financial cooperative owned by our Members. All income generated is returned directly to our Members in the form of competitive loan rates, high yielding dividends, and low or no-fee products and services.

Why Choose Southland Credit Union?
